Payroll Employment Status Mapping

This worksheet is used to determine the status of an employee such as full-time, part-time, or temporary.

The Payroll Employment Status Category reference values contain all the possible status categories for all payroll sources. The values in this reference table may not be changed. The categories in this table form the selectable drop-down list for the Payroll Employment Status Category field in the data area of the worksheet.

Payroll Employment Status Category	Analytics Labor Type
FT	FullTime
PT	PartTime
Pool	Pool
PerDiem	PerDiem
